

Individual Sensor Board (ISB) Alphasense B4 4-Electrode Gas Sensors

Technical Specification

The Individual Sensor Board (ISB) is designed for use with the Alphasense B4 family of four-electrode gas sensors. This potentiostat provides a dual channel voltage output.

A low noise bandgap provides the bias voltage for NO sensors and the ISB can measure both oxidising (CO, H₂S, SO₂ and NO) and reducing (O₃ and NO₂) gases. The ISB is configured as four versions for specific sensors: NO, NO₂, O₃ and CO/ H₂S/ SO₂.

Designed for low power applications, the ISB requires 3.5 to 6.4 stable DC supply at only 1mA.

If the ISB is supplied separate from the B4 sensor, ensure it is matched to the sensor type according to Table 1:

Table 1 ISB Part numbers

Part number	Sensor
000-0ISB-00	CO-B4, SO2-B4, H2S-B4
000-0ISB-01	NO-B4
000-0ISB-02	NO2-B42F
000-0ISB-03	OX-B421

Figure 1 ISB

Figure 2 ISB dimensions and socket for power and signals

Both the working electrode and auxiliary electrode (used to compensate for zero current) have equivalent two stage amplifiers and the buffered signals are available on the 6-way Molex socket along with the power IN pins. There are no adjustments on the ISB: zero offset and gain are fixed.

The ISB is a very low noise design and care must be taken with grounding and screening to achieve good ppb resolution. The power supply must be filtered to avoid noise on the output.

Accessories include gassing hoods for calibration checks and mounting pillars, sealing gaskets and hardware for easy fitting to your housing.

Individual Sensor Board (ISB) Alphasense B4 4-Electrode Gas Sensors

Figure 3 ISB dimensions and mounting hole locations

Table 2 Optional ISB Accessories

Optional fitting kit # 000-0ISB-KIT	
4 x pillars	16.0 mm length, M3 tapped
8 x washers	M3 flat washers
4 x screws	M3 x 8 button head screws
1 x transmitter lead	Molex socket housing with 150 mm leads

NB: 000-0ISB-KIT is required with any gas hood

Figure 4 Gas Hood with sensor and ISB

Part Number	Gas Hood*
000-GSHD-00	SS Swagelok ¼" connector
000-GSHD-01	PFA Swagelok ¼" tube connector
000-GSHD-02	Nickel plated brass ¼" BSP barb (standard fitting)
000-TUBE-FEP	¼" OD FEP tubing 1.5mtr
